The Engineering School is the most thoroughly manned and equipped school of its kind in Pennsylvania.

Full term opens September 17. For catalogue write to W. J. HOLLAND, Pres., Pittsburgh, Pa.

AFTER THE GREASE.

News of Late Developments in the
 Sistersville Oil Field.

A GOOD STRIKE MADE YESTERDAY

On the Ohio Side of the Field, and Another Good Well in Tyler County That Extends the Limits of the Field—Lack of Water Hindering Operations Everywhere—Yesterday's Pipe Line Run Was Very Large.

So gradually are developments maturing on the West Virginia side of the Ohio river at Sistersville that experienced and skeptical oil men are of the opinion that the great oil producing county of Ohio—Monroe county—will soon be second to Tyler county. Dusters have been showing themselves in this part of the field with a regularity that does not have to be marked against the Tyler county portion of the field. It should not be understood, however, that Monroe county is not a great producing country, for within its borders is the "golden circle"—the Freiden and Deist pools.

The new development referred to on the West Virginia side of the field is the No. 6 Dye-Brooks well of J. T. Jones & Co. The well was drilled in the Big Injun sand yesterday afternoon and made a showing for forty barrels a day and increasing. This is considered an important account of its location, it being 1,000 feet south of Dye-Brooks No. 1. Dye-Brooks No. 6 is not in the Keener sand developments; it is fully one and one-half miles south.

The Fisher Oil Company and Hamney on the Davenport, is due in the sand today.

Another link has been added to the famous "golden circle" of the Deist pool. The latest to announce itself is Henderson & Co.'s No. 2, on Eickelberry four-acre lease. It was drilled in last night and commenced a flow that was estimated at thirty barrels an hour. It is producing this amount at only a shallow distance in the sand, and if drilled deeper great things are expected of it. The location of the well is near Crawford & Treat's No. 4, on the Thos. Eickelberry.

The most serious hindrance to the progress of developments all over the Sistersville field just now is the great scarcity of water. Developments all over the field are seriously crippled by the drought. In addition to preventing new wells from being started, operations in numerous instances have been suspended until water can be secured with which to continue drilling. Operators consider the matter a most serious one.

SISTERSVILLE FIELD NOTES.

Another important well that will start drilling in a day or two is that of L. A. Ramey & Co. on the S. Tuel lease.

Yesterday's pipe line runs came very close up to the twenty thousand mark. They were Mellon, 4,395 and Eureka, 15,337; total, 19,642 barrels.

The Henry Oil Company has a well, No. 6, almost due in the sand on the Bradfield lease. It is down 1,700 feet. Caldwell & Boyer's Eickelberry, No. 6, was drilled in yesterday afternoon and is worthless. It is dry, with but a small showing of oil and gas.

Crawford & Treat's No. 5, on the Thos. Eickelberry, which was drilled in Tuesday evening, made one more flow yesterday morning—about twenty barrels. The information given by the INTELLIGENCER yesterday morning that it would make a thirty barrel pumper, was authentic.

Trail Run has an important well due possibly today. It is the McCalmont Oil Company's No. 7, on the Frohme farm, which is down over 1,800 feet.

Shay & McMullen's D. Ludwig No. 3, which was drilled in on Monday evening, will make a good producer. A companion rig to the big casing on the Riggle farm, has been built and drilling will commence shortly.

Robert G. Hearne Dead.

Last evening Mr. W. H. Hearne received a telegram from Kansas City, announcing the death there of Robert G. Hearne, a brother, and a son of the late Hon. William L. Hearne, of this city. The death took place at 8 o'clock yesterday morning, but the telegram gave meagre particulars. Mr. and Mrs. Frank J. Hearne left last night for Kansas City. Messrs. W. H. Hearne and wife, Julian G. Hearne, and Mrs. W. L. Hearne, their mother, will leave for the west this morning, probably. The news of the event was received with surprise and regret by the many friends of the deceased here. He left Wheeling several years ago and has since resided in Kansas City.

Dr. W. S. Fisher Dies.

This morning at 1:10 o'clock Dr. W. S. Fisher, the well known physician of Bridgeport, who has been sick for nearly two years, died. The event was not unexpected. He had been in a New York hospital for some time, but came home without being benefited, and had been sinking for two or three days before death came.

Steamroad Division Entertainment.

Last night at Walther's hall on the South Side, Steamroad division, No. 103, Brotherhood of Locomotive Engineers, gave an entertainment that was attended by a very large crowd. A programme of speeches and recitations was rendered and refreshments served to three hundred people. Ex-Sheriff Lewis Steamroad attended and made the speech of his life. A quilt that was raffled was won by Mrs. Quinn who held No. 50 ticket.

Transfers Recorded.

Clerk Hook yesterday admitted to record transfers of real estate as follows: October 5 by M. Pollock and wife and others to J. M. Cresap and wife, for \$5 and other considerations, 52 acres of land in Richland district, Ohio county. October 19 by John H. Whyte to James A. Flinn, a deed of partition for lots in their joint addition to the city, on the South Side.

Mr. Fee's New Coal Yards.

Yesterday a force of Baltimore & Ohio employees began the work laying the new switch to W. H. Fee's big coal yards, on Seventeenth street. Everything was ready to begin putting down the tracks, and as a large force was put on the job it is expected that the yard will be ready for hauling coal in a couple of days, at farthest, and coal will begin to arrive as soon as it can be handled.

Quite a Surprise.

A number of young ladies called at the club room of the Clover Leaf Mandolin and Guitar Club last evening and spent a very pleasant evening, and before leaving Miss Ada Lewis, for the party, stopped forward, and in a few well chosen words presented the club

with a handsome decorated china umbrella holder. After the club members had sufficiently recovered from their surprise, Mr. W. L. Jones, president of the club, responded in words suitable for the occasion.

Welcome With Entertainment.

Welcome Lodge No. 8, A. O. U. W., will hold another of its pleasant Thursday evenings at A. O. U. W. hall this evening. After the programme that has been prepared has been rendered refreshments will be served. Members of the order are cordially invited to be present.

DIED.

EMSHIMER—Suddenly, Tuesday, October 22, 1895, at 10:30 p. m. GABRIEL L. EMSHIMER, son of Jacob Emsheimer, sr., aged 2 years and 2 months.

CLOTHING AND FURNISHINGS—KRAUS BROS.

KRAUS BROS.**Character in Clothes.**

There is as much difference in Clothing as there is between extremes of good and bad mankind. Some of it is absolutely worthless, a good deal dishonest; more is without individuality of any sort and some is full of character—if we may say so—that the Clothing we sell is distinguished from the ordinary sort. It has its style, its sterling worth, and that indefinable "something" that poorly made goods always lack, and it is not higher priced than is absolutely necessary.

KRAUS BROS.,

Clothiers and Furnishers, 1319 Market Street.

STRICTLY ONE PRICE.

WILLIAMS TYPEWRITER.

IT IS A GEM.

WHEELING, W. VA., Sept. 10, 1895.

Messrs. COFF & DEVORE, City:

GENTLEMEN:—We are well pleased with the Williams Typewriter, bought in May last. It is a GEM, doing all kinds of work with less friction and greater ease than any other machine known to us. We have no hesitation in recommending the Williams above any machine on the market. Very truly yours,
